I am a professional photojournalist with over 8 years of experience. I began learning web development at the beginning of 2022 as a career changer. I applied my knowledge of **HTML**, **CSS**, and **JavaScript** to various projects. I developed **responsive websites**, I tried out **nodeJS** to implement a planned feature. I am currently learning **React** and have already created several small projects with it.

I am **detail-oriented** and **highly creative**. I have developed valuable soft skills, as well as the ability to **think critically** and **solve problems**. I am seeking to transition into front-end web development, where I believe my skills and experience will make me a valuable asset.

Projects

Gustoso Étterem és Pizzéria - https://bodnarb.hu/Restaurant
- Complete website for a restaurant using **HTML**, **CSS**, **JavaScript**.
- With a weekly menu section, the current menu is provided by **API**, which is stored in a **mongoDB** database. This can be updated on a separate admin interface via a **NodeJS** application.

Tic-Tac-Toe game in React - https://bodnarb.hu/ttt-v2-react
- A Tic-Tac-Toe game with best of three game format. Used **React** with functional components.

Tasty Donuts - https://bodnarb.hu/donutorder_bootstrap
- A donut ordering page using **HTML**, **CSS**, **JavaScript** and **Bootstrap**.
- Shopping cart front-end part. (Add to cart, change quantity, delete, total value.)

Blackjack - https://bodnarb.hu/BlackjackJS
- Simplified Blackjack using **JavaScript**, **HTML**, **CSS**.
- The player's cards are rendered in real time, as well as the dealer's cards at the end of the game.
